REACH Position Statement (EC 1907/2006) on the Registration, Evaluation and Restriction of Chemicals

Background

The Regulation, Evaluation, Authorization, and Restriction of Chemicals (REACH) is a European Community Regulation related to the safe use and identification of chemicals (Regulation (EC) Number 1907/2006).

REACH entered into force on June 1, 2007 with the aim of improving the protection of human health and the environment through better and earlier identification of the intrinsic properties of chemical substances. REACH was aimed at streamlining and improving former European Union chemical legislation by replacing approximately 40 individual pieces of legislation and harmonizing with the remaining legislation. The new legislative framework under REACH shifts responsibility for the control and safety of chemicals from government authorities to industry and created the European Chemicals Agency to act as a central coordinator.

Statement

According to REACH Spectrum Instrumentation GmbH is a „downstream user“. All Spectrum products are non-chemical products („articles“) as defined in REACH.

Under normal and foreseeable conditions of use no substances are intended to be released.

After contacting our suppliers and according to article 33 Spectrum confirms that Spectrum equipment (including packaging and accessories) does not contain any substance on the SVHC list above a concentration of 0.1% weight by weight of product.

More information about the SVHC candidate list can be found here:

<https://echa.europa.eu/en/candidate-list-table>

This document covers all SVHC candidates listed up to 27th June 2024

Signed Grosshansdorf, Germany, 2th July 2024
